PROJECTS

To-Do List - Web Application
This task was given to me in HackerEarth Frontend Internship Interview (Online Round). This app was made using HTML5, CSS, JavaScript with the feature persists the to-do list even after the page is refreshed.
Project Demo : https://manishbisht.github.io/To-Do-Application

Profile Reader - Web Application
Designed a web application that takes the name of the person from the user and tells you the details of the user using the Google Web Speech API.
Project Code : https://github.com/manishbisht/Profile-Reader
